We should set up some "find a Jan 6 buddy" kind of thing. Have thread where patriots can meet up with other patriots to make their way to D.C.

Don't remain just a keyboard warrior meme smith, let your memes be dreams.

If you have the means, the time, and the desire to go, even alone, do it. I drove to the Carson City rally in October alone and it was amazing; a once in a lifetime experience. Meeting new people and learning about their walks of life is very refreshing.

Obviously, this one is probably different. Moderate chances of confrontation and/or escalation. If it were me, if I were to go alone, I'd be there for the day, then try to GTFO before it gets dark. This is assuming you don't want to be involved in the potential violence.

Not to say fun won't be had, but yeah, there are risks but potentially great rewards. Food vendors would be smart to be there \$. Restaurants would be brave but smart to be open as well (breaking the DC mayor's restrictions). We'd prevent damage by violent folks and spend money.

You shouldn't tell anyone not to go. Trump needs us all. What are you expecting to happen?

Edit for warning on these asshole posts telling people not go. Read what our French friends who tried and failed at this said here a week ago:

Before the 6th of January, you HAVE to know what the enemy is going to do, what's going to happen to the Trump/Constitution supporters. The Yellow Vests in France already tried to take the institutions 2 years ago and failed miserably. Here's why. Spread in the country A lot of French demonstrated in their own town. They wanted to show that all the country was supporting the movement. It was a mistake, too bad for them: the ONLY WAY to overthrow a national swamp is to go to the capital and to focus yourselves on the political institutions. There is no other way. If you want Trump to be President the 6th of January, you probably have to be ONE MILLION patriots in Washington DC, to outnumber the enemy. Take care: probably they will try you to organize other meetings and demonstrations across the country, they will say it's too dangerous to go to DC, they will cancel the flights, they will covid you, etc. You know them. *They will give you a lot of reasons to stay home. DON'T! GO TO WASHINGTON DC.*

So STFU with your don't go bullshit. WE NEED EVERYONE!

So I'm thinking of going, I have time off from work due to COVID, but on the other end of that double edged sword I'm scraping by right now. I just looked and airline tickets are around 500\$ round trip, and that's just on the edge of what I can afford, but when factoring in other costs like hotel and travel it keeps it out of reach for me. I'm a stoic, so I would be perfectly fine in a tent, but that's more to either bring, or purchase when I'm there. I don't want to put anybody out, but if there was anybody willing to pick me up from an airport and let me carpool with them, and also let me buy a tent from amazon and have it sent to their house, then I might be able to pull this off, but otherwise I don't think I'm gonna be able to go.

I'm in Los Angeles, and I'd be willing to fly in anywhere within driving distance of DC.

Well said. This is the last stand of a free Republic. If you dont turn out for this because of the need to keep your job understand you wont have a job next year under Biden's lockdown plans and the eventual Communist takeover.

You wont have luxuries like cars or a house or any kind of personal property. Klaus Schwab of the WEF has already said we will be renting everything we need and "we will be happy."

Be in DC on Jan 6th or shut up and accept Communism. That is your choice. Hitchhike if you have to.

Careful. Many of the Antifa & BLM looters are still being identified/arrested months later after the riots using earlier in the day pictures and livestreams from when things were still a peaceful protest/march. Or so my sources in big city law enforcement tell me, just try not to capture faces in case things go sideways and patriots have to do patriot things.

This needs to louder for all the people in the back dooming and glooming. If you're not here to support our cause, get the fuck out. We don't need your "It's not gonna happen," or "No one is gonna do anything" posts.

If you're posting that shit, you need to get out and go somewhere else. Preferrably go to gitmo or just hang yourselves you cowards.

Seems to me, shouldn't pede groups be making plans as supporting elements - possibly to open up a line of supply or retreat by having manpower in place to seize a few bridges...

Not kenetically per se, but disrupting authorities from establishing a clearly defined perimeter needs thought out.

Also any pedes/trucking want to have a few vics loaded to resupply food/water etc

I people prob don't know the answer to this. But I have tried getting a hotel within 2 hours to DC with no luck. I will prob just sleep in my truck.

But does anybody have an idea on the best ways to get to DC from an hour or so away? I'm assuming all Uber's will be taken up! And also I don't see myself parking within walking distance to the White House. I would love to hear any pointers. I have only been there once. I am from GA

What are the predicted scenarios and outcomes on January 6th?

What I'm hoping for:

- Trump gathers everyone for a big speech
- Pence officially announces Trump won
- A video presentation of all the evidence in a digestible format like the Navarro report, played on jumbo trons 24/7 to explain it all
- A giant sing-along of the national anthem spontaneously breaks out all over DC
- Antifa is outnumbered, and is easily repelled

The remaining 14 days are turbulent, probably more bombs and assassination attempts, etc - but the military is brought in to do the job cops won't do. Trump and company are safe, as deepstate globalist retaliation and last attempt desperation attempts have been anticipated. Arrests are made from activist the most entrenched high ranking swamp creature. Big tech as well.

January 20th comes triumphantly as icing on the cake.

Trump finishes his term in 2024, and maybe continues on longer if the swamp is still not drained. The Dem's completely crumble as a party, and RINO's and the less radical Dem's start a rival party, which begins the long game having been RESET back many decades. Censorship is gone. Radical education and indoctrination is gone. All the groundwork the commies build for decades is beyond repair, and Americans will be redpilled for at least a generation before there's any chance of their return to power.

Have I missed anything here?

I am guessing he will have 270 by the 6th. It is starting to "*feel*" that way to me.

Feelings don't count for anything, but it is a hunch.

Congress may try to do a remote vote instead of actually showing up in DC. **If you can't make it to DC, protest your Senators/Representatives local offices or homes.** This is where they are most likely to log in from.

And if they do show up in DC, they may be getting calls from staffers or family informing them that there are angry protestors outside their office or home.

Don't bother with state capitals, the beach, the highway, or some random park. January 6th is not the time for raising general awareness. The goal is to get into these politicians faces!
